SUMMARY

Recent Information Technology graduate with a Bachelor's degree in Computers and Information Technology from the Egyptian E-Learning University, in a joint program with Fayoum University. Frontend Developer with hands-on experience in Angular, TypeScript, JavaScript, HTML, CSS, Bootstrap, Tailwind CSS, and Angular Material through graduation and personal projects. Experienced in leading a development team and integrating Angular applications with REST APIs. Strong foundation in object-oriented programming, databases, and problem-solving.

EDUCATION

Egyptian E-Learning University (EELU) - Joint Program With Fayoum University — **September 2022 - July 2026**

Bachelor Of Computers And Information Technology

Grade: Very Good with Honors | Graduation Project: Excellent

CERTIFICATIONS

- **Frontend Development Diploma** - Route IT Training Center | 2025
- **Programming Fundamentals Diploma** - Route IT Training Center | 2024
- **CCNAv7: Introduction to Networks** - Cisco Networking Academy | 2024

PROJECTS

VOYAGO - Tourism Management & Trip Planning Platform

Team Leader & Frontend Developer

Angular 17+, TypeScript, RxJS, Tailwind CSS, REST APIs, JWT Auth, Cloudinary, Responsive Design, Dark/Light Mode

- Led a team in developing a web-based tourism platform designed to simplify trip planning and booking in Fayoum.
- Built a complete admin dashboard using Angular Material, Bootstrap, and REST APIs to manage users, bookings, content, and system configurations.
- Developed responsive user interfaces using Angular and integrated the frontend with REST APIs provided by the backend team.
- Built features for hotels, restaurants, tourist attractions, tour guides, bookings, payments, emergency services, and budget planning.
- **Live Demo: https://voyago-gamma.vercel.app/home**

Cine Movie Explorer

Frontend Developer | *Personal Project* | Angular, TypeScript, RxJS, TMDB API, Vercel — 2026

- Built a movie discovery app with Angular signals and zoneless change detection, featuring adaptive theming driven by poster color extraction.
- Implemented debounced search, URL-driven genre filtering, pagination, and a cross-tab-synced watchlist using localStorage.
- Secured the TMDB API token with a Vercel serverless proxy and deployed with SPA rewrites; fully responsive and keyboard-accessible.
- **Live Demo: https://movie-explorer-six-omega.vercel.app/**

PROJECTS (CONTINUED)

Central Finds - E-Commerce Platform

Frontend Developer | *Personal Project* | Angular, TypeScript, SCSS, RxJS, REST API, Vercel

- Developed a modern, fully responsive e-commerce web application using Angular and TypeScript with Angular Router for seamless navigation.
- Implemented core features including dynamic product browsing, detailed product pages, shopping cart with quantity management, wishlist functionality, and checkout flow.
- Integrated REST APIs using RxJS for asynchronous state management and persistent cart, wishlist, and user preferences.
- Built clean, scalable UI components with SCSS and client-side form validations for enhanced user experience.
- **Live Demo: https://central-finds.vercel.app/**

Weather Application

Frontend Developer | *Personal Project*

- Developed a responsive weather application using HTML, CSS, and JavaScript.
- Integrated weather data through an API and displayed dynamic weather information in a user-friendly interface.
- **Live Demo: https://bassantezzat.github.io/weather/**

Authentication & User Management Application

Frontend Developer | *Personal Project*

- Developed a secure, responsive user authentication web application featuring login, registration, and user management flow.
- Implemented client-side form validation, state management, and seamless UI integration for authentication workflows.
- **Live Demo: https://auth-app-liard-xi.vercel.app/login**

TECHNICAL SKILLS

Frontend Development: Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS, Bootstrap, Tailwind CSS, Angular Material, RxJS, Responsive Design, Cross-Browser Compatibility, Performance Optimization, Debugging

Backend & Fundamentals: REST APIs, RESTful Services, Node.js (Beginner), Backend Development Fundamentals (Beginner)

Programming Languages & Core Concepts: Java, C++, Python (Beginner), Object-Oriented Programming (OOP), Database Fundamentals

Tools & Deployment: Git, GitHub, Vercel

LANGUAGES

Arabic: Native | **English:** Upper-Intermediate
